**MANILA**—A GRIPPING tale of guts, strategy and controversy greeted the Philippines as a full team from Manila took part in the 2005 World Cup, and looking to take the ring out of the Philippines, there were no more than a few minutes of the tournament.

The Philippines, which has a long history of boxing, was one of the few countries to have a full team in the tournament. The Philippines, which has a long history of boxing, was one of the few countries to have a full team in the tournament.

# Indon court frees Pinoys in 'pyramid'

**MANILA, Jan. 13 (AP) —** An Indonesian court has freed two Filipino men charged with an alleged pyramid scheme in a case that has been widely reported in the Philippines. The two men, who were arrested in 2007, were charged with running a pyramid scheme that promised to pay members 10 percent of the sales of other members. The court found them not guilty of the charges.

<sup>10</sup> In the literature it is usually the subject-matter itself that is taken to require the attention of the subject-matter expert. For example, in the case of a text-based system, the system designer is usually assumed to be the one who knows what the system should do. In this paper, I argue that the system designer is not the one who knows what the system should do, but rather the one who knows what the system should not do.

**When is a congresswoman a gentle lady? Actually, never**

By Douglas V. Branson

QUALITATIVE RESEARCH: F. HART

And a strong negative correlation exists between the size of the firm and the number of patents it has. The average number of patents per firm is 1.5, and the average number of patents per employee is 0.0001.

“Being a cop is a dangerous job, especially in a city like New York,” says Officer Michael “Mike” Laine, a 30-year-old cop who has been on the force for 17 years. “You’re always in a dangerous situation. You’re always in a dangerous situation. You’re always in a dangerous situation.”

My main complaint is I cannot see the back view of the car without the side mirror. That's unfortunate, especially for safety purposes in reversing and lane changing. You'd think that with 2007 models, it would be a basic safety feature. As a result, I have to turn my head.

Corporate tax reform would not have that effect, says the IRS, and even so, Congress is taking a public-works approach to the issue of tax administration reform.

It is important to note that the results of this study are based on a cross-sectional design. Therefore, the causal relationship between the variables cannot be definitively established. Future research should consider longitudinal studies to explore the temporal dynamics of these relationships.

# Nominee war wracks Buhay

MANILA (AP) — A war of attrition between two political dynasties in the Philippines has reached a new level of intensity as the 2010 elections near. The battle is being fought in the heart of the country's political capital, Manila, where the Buhay family has long reigned supreme. The war is not just a contest of power, but a struggle for the soul of the nation. As the Buhay family's grip on power tightens, the opposition forces are growing stronger. The stakes are high, and the competition is fierce. The Buhay family's dominance has been a source of controversy for years, with critics accusing them of using their influence to manipulate the political process. The 2010 elections are expected to be a turning point in the family's history. The Buhay family's power has been a source of both pride and controversy. **Nat'l ID bill filed**

By Bureau Staff

IN A move to speed up the process of issuing national identification cards, the Department of Justice filed a bill in the House of Representatives.

The bill, known as the National Identification Act, aims to streamline the process of issuing IDs to all citizens.

The bill also provides for the creation of a national identification database, which will be used to verify the identity of citizens.

The bill is expected to be passed by the House in the near future.

The bill is a significant step towards improving the efficiency of the national identification system.

The bill is also expected to help in the process of issuing IDs to citizens who are currently without them.

The bill is a key part of the government's efforts to improve the national identification system.

One year ago

One year ago today, the Philippines was in the midst of a political crisis. The 2007 elections had just taken place, and the results were being contested. The country was in a state of uncertainty, and the people were looking for a way out of the crisis. Today, we look back at the events of that year and the progress that has been made since then.

# MWSS: We still need to conserve water

By J. Reyes

MANILA (Inquirer) — The Metropolitan Waterworks and Sewerage System (MWSS) is still a long way from being a fully functional water utility. Despite the fact that it has been around for over 50 years, it still faces many challenges, including a lack of funds, a shortage of skilled personnel, and a lack of political support. As a result, the system is unable to provide the quality of service that is needed by the people of Manila. It is time for the government to take action to reform the MWSS and ensure that it is able to provide the water that the people need.

Figure 1 shows a schematic diagram of a two-dimensional lattice. The lattice is represented by a grid of points. A central point is labeled '0'. Points are labeled with integers from -10 to 10. The horizontal axis is labeled 'x' and the vertical axis is labeled 'y'. The lattice is bounded by a square frame. The points are arranged in a regular grid pattern.

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a screen. On the screen, there is a starting point (green dot) and a target (red dot). The participant's hand is positioned at the starting point. The diagram shows the spatial relationship between the participant, the screen, and the target, with labels for 'Target', 'Starting point', and 'Participant'.

# Group opposing amendments to Epira

**By Regino C. Pao**  
 The Philippine Chamber of Commerce and Industry (PCCI) has expressed its opposition to the proposed amendments to the Epira law, which governs the operation of the Philippine Chamber of Commerce and Industry (PCCI). The PCCI, which is the largest business organization in the Philippines, has filed a petition with the Supreme Court to nullify the amendments. The amendments, which were passed by the House of Representatives in May 2008, would change the PCCI's structure and functions. The PCCI argues that the amendments would undermine its independence and its ability to represent the interests of the business community. It also claims that the amendments would violate the constitution. The PCCI has asked the Supreme Court to declare the amendments unconstitutional and to nullify them. The amendments are expected to take effect in January 2009.

# First-half VAT collection falls 26% short of P91.4-B target

**By Regino C. Pao**  
 The Department of Finance (DOF) reported that the first-half VAT collection for the year 2008 fell 26% short of the target of P91.4 billion. The actual collection for the first half of the year was P68.1 billion, or 74% of the target. The DOF attributed the shortfall to a number of factors, including a decline in the collection of VAT on imports and exports, and a decrease in the collection of VAT on services. The DOF also noted that the collection of VAT on goods and services was 10% below the target. The DOF expects the second-half collection to be around P90 billion, or 98% of the target. The DOF is working to improve the collection of VAT in the second half of the year.

## Govt seeks to address tax administration problem

The Department of Finance (DOF) is seeking to address the problem of tax administration in the Philippines. The DOF has identified several key areas for improvement, including the collection of taxes, the enforcement of tax laws, and the provision of tax services to taxpayers. The DOF has launched a number of initiatives to address these issues, including the implementation of a new tax administration system, the establishment of a tax appeals tribunal, and the creation of a tax ombudsman. The DOF also plans to launch a campaign to educate taxpayers about their tax obligations and the benefits of paying taxes. The DOF hopes that these initiatives will lead to an increase in tax collection and a more efficient tax administration system.

## 5 suspending credit shakers up local insurers

The Philippine Chamber of Commerce and Industry (PCCI) has announced that it is suspending credit from five local insurance companies. The PCCI claims that these companies have failed to meet its requirements for creditworthiness. The suspended companies are the Philippine Life Insurance Company, the Philippine General Insurance Company, the Philippine Fire Insurance Company, the Philippine Marine Insurance Company, and the Philippine Surety Insurance Company. The PCCI has asked the companies to provide evidence of their financial soundness and to improve their credit ratings. If the companies fail to do so, the PCCI will continue to suspend credit from them. The PCCI is a major business organization in the Philippines, and its decision to suspend credit from these companies is a significant move. It shows that the PCCI is serious about ensuring that the insurance companies it deals with are financially sound and reliable.

**The Bottom Line**

**T**he first time I saw a person with a prosthetic arm, I was struck by the way they moved. It wasn't just the arm, but the way they carried themselves, the way they interacted with the world. I realized that I was looking at a person who had overcome a significant challenge and was now living a full and active life. This realization inspired me to explore the possibilities of prosthetic technology and the impact it could have on people's lives.

## Elvis enterprise ever bigger now

By JIM LEE  
The Elvis Presley Enterprises (EPE) is expanding its reach into the digital world with the launch of its new mobile app, "Elvis Presley: The Ultimate Experience." The app, available for both iPhone and Android, offers users a comprehensive look into the life and career of the King of Rock and Roll. It includes exclusive photos, behind-the-scenes footage, and interactive elements that allow fans to explore Elvis's world in a new and engaging way. The app is part of EPE's broader strategy to leverage digital technology to enhance the fan experience and maximize the commercial potential of the Elvis brand.

At 35, this band member looks 30. And he's an ULTIMATE ROCK STAR.
